Secy. to the Bengal Legis. Council.

THE BENGAL BORSTAL SCHOOLS (AMENDMENT) BILL, 1942.

A

BILL

to amend the Bengal Borstal Schools Act, 1928.

WHEREAS it is expedient to amend the Bengal Borstal Schools Act, 1928, for the purpose hereinafter appearing, it is hereby enacted as follows :—

1. This Act may be called the Bengal Borstal Schools (Amendment) Act, 1942.

2. After section 10 of the Bengal Borstal Schools Act, 1928, the following sections, shall be inserted, namely :—

"10A. The Provincial Government may, if satisfied that any offender who has been sentenced to transportation either before or after the passing of this Act, of 1942, and who at the time of conviction was not less than 16 years nor more than 21 years of age might with advantage be detained in a borstal school, direct that such offender shall be transferred to a borstal school, there to serve the whole or any part of the unexpired residue of his sentence. The provisions of this Act shall apply to such offenders as if he had been originally sentenced to detention in a borstal school.

10B. When any male person of less than twenty-one years of ago has been sentenced for an offence by a Magistrate to rigorous imprisonment, or when ordered by a Magistrate to give security for good behaviour has failed to give such security, and has been committed to or confined in prison and no appeal has been preferred against such sentence or order within the prescribed time and when by reason of such person's criminal habits or tendencies or association with person of bad character it is expedient, in the opinion of the District Magistrate, that he should be detained in a borstal school the District Magistrate, may order that such person in lieu of undergoing imprisonment be detained in a borstal school for a period not less than two years nor more than five years.

10C. Whenever it appears to the Superintendent of a jail that any male person less than twenty-one years of age sentenced to transportation or rigorous imprisonment for an offence or committed to or confined in a prison for failing to give security for good behaviour should for the reasons described in sub-section (*1*) of section 5 be detained in a borstal school he shall cause such prisoner to be produced before the District Magistrate in whose jurisdiction the jail is situated ; and if the District Magistrate after making such enquiry as he may deem proper or as may be prescribed is satisfied that the prisoner should for the reasons mentioned in the said sub-section be detained in a borstal school, he may order the prisoner to be removed from jail and detained in a borstal school for a period equal to the unexpired term of the transportation or imprisonment to which he was sentenced or of the period for which security was required from him, as the case may be.

10D. *(1)* Where it appears to the Provincial Government that any person detained under any order in a borstal school is of unsound mind, the Provincial Government may order his removal to a lunatic asylum or other place of safe custody there to be kept and treated as the Provincial Government directs during the unexpired period for which he has been ordered to be detained or if on the expiration of that term, it is certified by a medical officer that it is necessary for the safety of the inmate or others that he should be further detained under medical care or treatment, then until he is discharged according to law.

The Bengal Borstal Schools (Amendment) Bill, 1942.

(Clause 2.)

(2) Where it appears to the Provincial Government that an inmate so kept and treated has become of unsound mind, the Provincial Government shall by a warrant directed to the person having charge of the inmate, if still liable to be detained, remand him to the borstal institution or if he is no longer liable to be detained order him to be discharged.

(3) The provisions of section 31 of the Indian Lunacy Act, 1912, shall apply to every person confined in a lunatic asylum under sub-section *(1)* after the expiration of the term for which he was ordered to be detained, and the time during which an inmate is confined in a lunatic asylum under that sub-section shall be reckoned as part of the term of detention which he may have been ordered to undergo".

STATEMENT OF OBJECTS AND REASONS.

The principal and main object of this amending Bill is to empower the Provincial Government, District Magistrate and Superintendent of a jail to take necessary steps for the good of the juvenile offenders confined in jail; secondly, to afford larger facilities for the welfare of the young offenders. This would be quite in keeping with the modern trend of the world movement. The wonderful development of medical science has proved the fact that crime mentality is one of disease and can be cured by adopting suitable remedies. So in every civilized country proper measures are being adopted to give every facility to young offenders to reform themselves.

In Bengal, the facilities are very limited. It is desirable that scope of the present Borstal Schools Act, 1928, should be widened and larger powers should be given to District Magistrates and the Provincial Government. Hence there is a necessity of the proposed amending piece of legislation in Bengal.

The Bengal Probation of First Offenders Bill, 1942.

(Clause 5.)

(*a*) the age, character, antecedents or physical or mental condition of the offenders, and (*b*) to the trivial nature of the offence or any extenuating circumstances under which the offence was committed, for reasons to be recorded in writing instead of sentencing him to any punishment, release him after due admonition.

5. (*1*) Notwithstanding anything contained in any other enactment for the time being in force when—

(*a*) any person is convicted of an offence not punishable with death or transportation for life, and no previous conviction is proved, or

(*b*) any woman is convicted of any offence of any kind if it appears to the court by which the offender is convicted regard being had to the age, character, antecedents or physical or mental condition of the offender or to the circumstances in which the offence was committed, that it is expedient that the offender should be released on probation of good conduct, the court may, instead of sentencing at once to any punishment, direct that he be released on his entering into a bond with or without sureties, to appear and receive sentence when called upon during such period not exceeding four years as the court may direct and in the meantime to keep the peace and be of good behaviour :

Provided that the court shall not pass an order of release on probation under this section unless it is satisfied that the offender or one of his sureties (if any) has a fixed place of abode or regular occupation and is likely to continue to have such place of abode or such occupation within the local limits of its jurisdiction during the period of the bond :

Provided further that if a person under twenty-one years of age is convicted of any offence under the Indian Penal Code or any other enactments prescribed in this behalf under any rules made by the Provincial Government, which is punishable with imprisonment not exceeding six months, the court shall act under this section unless for any special reasons recorded in writing it does not consider it proper to do so.

(*2*) Where the offender ordered to be released under sub-section (*1*) appears to the court to be under the age of twenty-four years, the court may make an order to be called a supervision order directing that such offenders shall be under the supervision of such probationer officer as may be named in the order during the period specified therein and imposing such other conditions as in the opinion of the court are necessary to secure such supervision as may be specified in the order :

Provided that the period so specified shall not exceed the date on which in the opinion of the court the offender will attain the age of twenty-five years.

(*3*) A court making an order under sub-section (*2*) shall require the offender to enter into a bond with or without sureties and the bond shall contain such additional condition with respect to residence, abstention from intoxication and any other matters which the court may, having regard to the particular circumstances of the case, consider necessary to impose for preventing a repetition of the same offence or a commission of any other offence by the offender.

(*4*) A court making an order under sub-sections (*2*) and (*3*) shall furnish to the offender and the sureties, if any, a notice in writing stating in simple terms the conditions of the bond which the offender is required to observe.

The Bengal Probation of First Offenders Bill, 1942.

(Clauses 6—10.)

6. (*1*) A court directing the release of an offender under section 4 or 5 of this Act may order the offender to pay such compensation for loss or injury caused to any person by the offence and such costs of the proceedings as the court thinks reasonable.

(*2*) At the time of awarding compensation in any subsequent civil suit relating to the same matter, the court shall take into account any sum paid or recovered as compensation under sub-section (*1*).

(*3*) The amount ordered to be paid under this section shall be recoverable as a fine in accordance with the provisions of sections 386 and 387 of the Code.

7. (*1*) Notwithstanding anything contained in the Code save and except in cases in which the offender has pleaded guilty or where the order is passed by the High Court, an appeal shall be from an order of conviction in every case in which an order is passed under section 4 or 5 to the court to which appeals ordinarily lie under the Code.

(*2*) The appellate court or the High Court in the exercise of its powers of revision may pass any such order as it could have passed under the Code, or may set aside an order under section 4 or 5 and in lieu thereof pass sentence on such offender according to law :

Provided that it shall not inflict greater punishment than might have been inflicted by the court by which the offender was convicted.

8. (*1*) If the court before which the offender is bound by his bond under section 5 to appear for sentence when called upon or any court which could have dealt with the offender in respect of his original offence, has reason to believe that the offender has failed to observe any of the conditions of the bond executed by him, it may issue warrant for his arrest or may, if it thinks fit, issue a summons to the offender and his sureties, if any, requiring him or them to attend before it at such time as may be specified in the summons.

(*2*) The court before which the offender is brought or appears under sub-section (*1*) may either remand him to custody until the case is proved or admit him to bail with or without sureties to appear on the date of hearing.

(*3*) If the court, after hearing the case, is satisfied that the offender has failed to observe any of the conditions of his bond, it may forthwith—

(*a*) sentence him for the original offence, or

(*b*) without prejudice to the continuance in force of the bond impose upon him a fine not exceeding one hundred rupees.

(*4*) If a fine imposed under clause (*b*) of sub-section (*3*) is not paid within such period as the court may fix, the court may sentence the offender for the original offence.

9. The provision of sections 122, 126, 126A, 406A (*b*) and (*c*), 514, 514A, 514B and 515 of the Code shall, so far as may be, apply in the case of sureties offered and bonds given under this Act as if they had been offered and given under Chapter VIII of the Code.

10. (*1*) A probationer officer named in a supervision order may be—

(*a*) any person appointed to be a probation officer by the Provincial Government,

(*b*) any person nominated for this purpose by a society recognised in this behalf by the Provincial Government, or

The Bengal Probation of First Offenders Bill, 1942.

(Clauses 11, 12.)

(*c*) in any exceptional case any other person who, in the opinion of the court, is a fit person to act as a probationer officer in the special circumstances of the case.

(*2*) A probationer may be a person of both sex and shall possess such qualification as prescribed by rules by the Provincial Government.

(*3*) A probationer officer in the exercise of his duties under any supervision order shall be subject to the control of the District Magistrate of the district in which the offender for the time being resides.

(*4*) The court before which an offender is bound by his bond under section 5 to appear and receive sentence when called upon ; or the District Magistrate concerned may at any time appoint another probation officer in place of the persons named in the supervision order.

Explanation.—In this section in a Presidency town, "District Magistrate" means the Chief Presidency Magistrate and "District" means the Presidency town.

11. A probationer officer shall, subject to the provisions of section 10, rules made under this Act and to the direction of the court—

(*a*) visit or receive visits from the offender at such reasonable intervals as may be specified in the supervision order or subject thereto, as the probation officer may think fit,

(*b*) see that the offender observes the conditions of his bond or bonds,

(*c*) report to the court as to the behaviour of the offender,

(*d*) advise, assist and befriend the offender and, when necessary, endeavour to find for him suitable employment, and

(*e*) perform any other duty which may be prescribed by rules made under this Act.

12. (*1*) The court before which any person is bound by a bond executed under the provisions of this Act to appear and receive sentence may at any time upon the application of the probation officer or of its own motion, if it thinks that it is expedient bond should be varied, summon the offender to appear before it, and, if he fails to show cause, why such variation should not be made, vary terms of the bond by extending or diminishing the duration thereof or by altering any of the conditions thereof or by inserting additional conditions therein :

Provided that, in no case shall the duration of the bond be less than one year or more than three years from the date of the original order and where a supervision order has been made under section 5 the duration of the period of supervision shall extend beyond the date in which in the opinion of the court the offender shall attain the age of twenty-five years, provided also that in the case of a bond with a surety or sureties no such variation shall be made without the consent thereto of such surety or sureties and that in the absence of such consent the court shall in all such cases require the offender to execute a new bond with or without sureties.

(*2*) Such court may also on the application made by the probation officer or of its own motion on being satisfied that the conduct of the offender has been such as to make it unnecessary that he should be kept any longer under supervision discharge the bond.

The Bengal Probation of First Offenders Bill, 1942.

(Clauses 13—15.)

13. (*1*) The Provincial Government may make rules for the purpose of carrying into effect the provisions of this Act.

(*2*) In particular and without prejudice to the generality of the foregoing power, the Provincial Government may make rules—

(*a*) regulating the appointment, resignation and removal of probation officer and prescribing the qualifications of such officer ;

(*b*) prescribing and regulating the duties of probation officer ;

(*c*) regulating the remuneration and expense payable to the probation officer or subsidy to a recognised society ;

(*d*) specifying condition in which societies may be recognised for the purpose of clause (*b*) of subsection (*1*) of section 10 ; and

(*e*) the enactments referred to in the second proviso to section 5.

(*3*) All rules made under this section shall be subject to the condition of previous publication in the *Official Gazette*.

14. In any area in which this Act is in force, no court shall make an order under sections 562, 563 and 564 of the Code in respect of any first offender.

15. Nothing in this Act shall affect provision of the Bengal Children Act of 1922, the Bengal Borstal Act of 1928 or the Reformatory Schools Act of 1897.

STATEMENT OF OBJECTS AND REASONS.

The main object of the proposed Bill is to give more wide power to proper courts to give opportunity to first offenders to reform themselves. There are some provisions in the Code of Criminal Procedure, 1897, but these are not wide enough and are not elaborate and comprehensive, hence there is a necessity of an enactment like that of the proposed one.

A

BILL

to prevent indecent advertisement in Bengal.

WHEREAS it is expedient to prevent indecent advertisement in Bengal, it is hereby enacted as follows :—

1. This Act may be called the Bengal Indecent Advertisement Prevention Act, 1942.

2. This Act will extend to the whole of the province of Bengal.

3. In this Act, any advertisement, relating to syphilis, gonorrhœa, nervous debility, or other complaint or other disease arising from or relating to sexual intercourse shall be deemed to be printed or written matter of an indecent nature.

4. Whosoever affixes to, inscribes or stencils on any house, building, wall, boarding, gate, fence-pillar, telegraph, telephone, electric or other posts, board, tree or any other structure or thing whatsoever in such a manner that it is visible to any person being in or passing along any street, public highway, footpath, or any lane or bye-lane, and whoever affixes to, inscribes or stencils on any public latrine or urinal, or exhibits to public view in the window or door or shutter or roof of any house or shop any picture, or printed or written matter which is of indecent nature, shall on conviction, be punished with imprisonment of either description for a term which may extend to six months or with fine which may extend to five hundred rupees or with both such imprisonment and fine.

5. Whenever any printed or written matter of indecent nature has been displayed in the manner prohibited by section 4, any person being in possession or control of the land, building structure or premises to which such printed or written matter has been affixed, knowingly allows the same to be continued to be displayed shall, on conviction, be punished with imprisonment which may extend to six months or with fine which may extend to five hundred rupees or with both such imprisonment and fine.

6. Whoever gives or delivers to any other person any such pictures or printed or written matter mentioned in section 4 with the intent that the same or some one or more thereof should be affixed, inscribed, stencilled or displayed or exhibited as therein mentioned shall, on conviction, be punished with imprisonment of either description which may extend to six months or with fine which may extend to five hundred rupees or with both.

7. If a District Magistrate, Subdivisional Magistrate or Magistrate of the First Class has reason to believe that any picture or printed or written matter of an indecent nature which has been affixed, inscribed or stencilled as mentioned in section 4 continues to be exhibited to public view after the commencement of this Act, he may by order in writing authorise any police officer to enter, with such assistance as may be required, any place and seize, remove, deface or destroy any such picture or printed or written matter.

8. Any police officer not below the rank of Sub-Inspector may arrest any person whom he shall find committing any offence against this Act.

9. Nothing in this Act shall apply to any advertisement published by any local body or published with the sanction of the Provincial Government.

STATEMENT OF OBJECTS AND REASONS.

It is a known fact that indecent pictures printed or written are often exhibited in such a manner that the people may be attracted thereby.

Such exhibitions are debasive of human morale and are highly objectionable. It is necessary that exhibition of such pictures or printed or written matter of indecent nature should be suppressed, and with that purpose this Bill has been framed.

4. (*1*) An empowered local body may from time to time, by resolution adopted according to rules, fix the maximum number of licensed shops at which liquor may be sold within its local area.

(*2*) Such maximum number shall not be less than one-third of total number of shops licensed for retail sale by the Collector in case of a municipal body and in any other case not less than one-half of the shops so licensed.

(*3*) Such resolution shall become operative from the first day of April in the year next following the date in which it was passed.

5. An empowered local body may, by resolution passed from time to time, according to its rules of business,—

(*1*) prescribe a maximum number which may be less than the proportion prescribed under sub-section (*2*) of section 4 of licensed shops :

Provided that no such resolution shall have effect unless it has been passed in which three-fourths of the total number of the members of that local body voted in its favour ;

(*2*) when a resolution has been thus passed under sub-section (*1*), it shall take effect from the 1st of April of the year next following the date of such passing and shall remain in force till it is cancelled by a resolution similarly passed by the members of that local body and in the event of such resolution being adopted by the members of the local body, it shall have effect from the 1st day of April in the year next following the date of such further resolution.

6. Notwithstanding anything contained in the Bengal Excise Act, 1909, and the rules made thereunder with regard to the powers and function of the Collector under the said Act, resolutions passed under sections 4 and 5 shall be binding upon the Collector of the district in which the local area concerned is situated.

CHAPTER III.

7. Except as hereinafter provided, the provision of this Act shall not apply to the sale of foreign liquor, but when an empowered local body has prescribed a maximum number of licensed shops under section 4 or under section 5 and the Provincial Government is satisfied that the object of such prescription is being evaded by the sale of foreign liquor in the local area concerned, the Provincial Government shall by rule made under section 85 of the Bengal Excise Act, 1909, prohibit the Collector from granting a license for the sale of foreign liquor in the said local area except in accordance with the term of such resolutions as such empowered body may have passed or may pass in respect of country liquor or foreign liquor.

CHAPTER IV.

8. An empowered local body may make rules prescribing—

(*i*) the portions of its local area in which licensed shops may be situated ;

(*ii*) the hours during which liquor may be sold at such shops ;

(*iii*) the minimum age, which shall not exceed 18 years, of the person who may be served with liquor at such shops.

CHAPTER V.

9. Any person who commits a breach of any rule made under section 8 shall be punishable with a fine which may extend to two hundred rupees.

10. Subject to the provision of this Act, the provisions of the Bengal Excise Act, 1909, and the rules made thereunder shall have full force and effect in the local areas of all empowered local bodies.

STATEMENT OF OBJECTS AND REASONS.

Prohibition is in force in some provinces of India, such as Madras, Bombay, etc. The Government of Bengal have adopted a policy of gradual restriction on sale of intoxicants. With that view, they have set up excise licensing boards in some districts. These boards are advisory only in character and have no non-official majority. Moreover, they have been given very meagre powers. It is necessary that power should be given to municipal bodies to restrict the number of liquor shops within their respective areas. With that purpose this Bill has been framed. It proposes a transfer of very limited power to the municipal bodies at the first instance.

BENGAL LEGISLATIVE COUNCIL DEPARTMENT.

NOTIFICATION.

No. 1630L.C.—25th November, 1942.—In pursuance of the provisions of rule 51 of the Bengal Legislative Council Procedure Rules, the following Bill, which was introduced in the Bengal Legislative Council on the 13th November, 1942, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

S. K. D. GUPTA,
Secy. to the Bengal Legis. Council.

THE BENGAL MONEY-LENDERS (AMENDMENT) BILL, 1942.

A
BILL

to amend the Bengal Money-Lenders Act, 1933.

WHEREAS it is expedient to amend the Bengal Money-Lenders Act, 1933, in the manner hereinafter appearing, it is enacted as follows :—

1. This Act may be called the Bengal Money-Lenders (Amendment) Act, 1942.

2. For section 3 of the Bengal Money-Lenders Act, 1933, the following section be substituted, namely :—

"3. (*1*) Where in any suit or proceeding in respect of any money lent by a money-lender after the commencement of the Usurious Loans Act, 1918, the court shall deem interest to be excessive if it exceeds seven and half per centum per annum simple interest or is more than two per centum over the bank rate, whichever is higher at the time of taking the loan in the case of secured loans or ten per centum per annum simple interest in the case of unsecured loans :

Provided that the court shall not deem interest in excess of the above rates to be excessive if the loan has been advanced by the Imperial Bank of India or any bank included in the Second Schedule to the Reserve Bank of India Act, 1934, or any co-operative society registered under the Bengal Co-operative Societies Act of 1940.

(*2*) This section shall apply to any suit or proceeding whatsoever its form may be if such suit or proceeding is substantially one for the recovery of a loan or for the enforcement of any agreement or security in respect of a loan or for the redemption of any such security."

3. For section 5 of the Bengal Money-Lenders Act of 1933 the following section shall be substituted, namely :—

"5. No money-lender shall recover by suit interest of any kind at a rate exceeding five per centum per annum in respect of any loan made after the commencement of this Act under a contract which provides for the payment of compound interest."

STATEMENT OF OBJECTS AND REASONS.

The chief aim of this simple amending Bill is to reduce the rate of interest provided in the original Act to bring it on par with that provided in the Bengal Money-Lenders Act of 1940. As the Bengal Money-Lenders Act of 1940 does not apply to commercial and other loans as defined in sub-clause (*12*) of section 2 of the said Act and as the Bengal Money-Lenders Act, 1933, still applies to such loans, there is a necessity of proposed amendment.

(*2*) A notification under this section may apply either generally or in relation to any particular foreign force or in relation to any particular place.

Saving of limitation of jurisdiction of British Indian Courts.

12. (*1*) Nothing in section 3 shall affect the jurisdiction of any criminal court in British India to try a member of a foreign force for any act or omission constituting an offence against the law of British India.

(*2*) If a person sentenced by a court exercising jurisdiction by virtue of section 3 to punishment for an offence is afterwards tried by a criminal court in British India in respect of any act or omission which constituted that offence, such criminal court shall, in awarding punishment in respect of that act or omission, have regard to any punishment imposed on him by the said sentence.

CHAPTER II.

Administration and Control.

Educational institutions in Bengal are controlled by the Department of Education, the two Universities of Calcutta and Dacca, the Board of Intermediate and Secondary Education, Dacca, district boards, municipalities, district school boards and a number of religious and philanthropic societies. The control of general education as also of engineering education is ultimately vested in the Minister of Education who is an elected member of the Legislative Assembly, whereas medical education is controlled by the Department of Local Self-Government and agricultural, technical and industrial education by the Department of Agriculture and Industries. Throughout the period under review the portfolio of Education was in charge of the Hon'ble Mr. Abul Kasem Fazlul Huq, Chief Minister, who was also, as Minister of Education, *ex-officio* President of the Provincial Board of Anglo-Indian and European Education in Bengal.

2. The Education Department consists of the following services:—

(*i*) Indian Educational Service (Men's Branch).

(*ii*) Bengal Senior Educational Service (Men's and Women's Branches).

(*iii*) Bengal Educational Service (Men's and Women's Branches).

(*iv*) Bengal General Service—Education.

(*v*) Subordinate Educational Service.

(*i*) *Indian Educational Service.*—Recruitment to this service has been stopped since 1924 by orders of the Secretary of State for India. There were only 11 posts in the cadre during the year excluding the post of the Director of Public Instruction, Bengal. Of these, 7 were held by permanent members of the Indian Educational Service and 4 filled temporarily by officers of the Bengal Senior Educational Service. It has been decided by the Secretary of State to leave these posts unfilled pending a final decision regarding their abolition from the Indian Educational Service cadre. Of the seven permanent members of the Indian Educational Service one, *viz.*, Mr. R. N. Gilchrist, is on deputation to another department of the Government of Bengal and a Bengal Senior Educational Service officer has been placed in the vacancy.

(*ii*) *Bengal Senior Educational Service.*—There were 54 posts in the Men's Branch and 5 posts in the Women's Branch of the Bengal Senior Educational Service on the 31st March 1941, besides the temporary post of Special Officer for Primary Education, Bengal. Of the posts in the Men's Branch, 33 were held by permanent members of the service and 8 by members of the Bengal Educational Service on an officiating basis. Of the remaining 13 posts, 6 were actually held by members of the Indian Educational Service and the remaining 7 by members of the Bengal General Service on a contract basis on special rates of pay. One of the 5 posts in the Women's Branch of the Bengal Senior Educational Service was occupied by a member of the Bengal General Service in an officiating capacity until the 31st July 1940.

(*iii*) *Bengal Educational Service.*—The Men's Branch of the Bengal Educational Service contained 197 posts, one more than in the preceding year. The Women's Branch of the service consisted as before of 33 posts.

(*iv*) *Bengal General Service.*—The strength of this service at the close of the year under report was 50: the decrease of three from the previous year is due to the abolition from 1st March 1941 of 3 posts in the Training Department of the Dow Hill Girls' School, Kurseong.

Besides the above there were certain part-time gazetted posts either honorary or on fixed rates of pay or allowance during the year as detailed below:—

(1) Part-time Professor of Geology, Presidency College.
(2) Part-time Lecturer in Geology, Bengal Engineering College.
(3) Visiting Lecturer in Accountancy, Bengal Engineering College.
(4) Visiting Lecturer in Irrigation, Bengal Engineering College.
(5) Honorary Visiting Lecturer in Electrical Engineering, Bengal Engineering College.

3. **Direction.**—The Director of Public Instruction, Bengal, is the executive head of the Education Department of the Government of Bengal. During the year under review Mr. J. M. Bottomley, C.I.E., was the Director of Public Instruction, Bengal. He was assisted in his work by an Assistant Director of Public Instruction, an Assistant Director of Public Instruction for Muhammadan Education, a Special Officer for Primary Education, a Special Officer for Scheduled Castes Education, a Special Officer for Muslim Education, a Special Officer for Secondary Education and a Reader and Secretary, Text-Book Committee. The post of Assistant Director of Public Instruction was held by Khan Bahadur Abdur Rahman Khan and that of Assistant Director of Public Instruction for Muhammadan Education by Khan Bahadur Badiur Rahman. The posts of Special Officers for Primary Education and Scheduled Castes Education were held by Khan Sahib Mr. Abdul Hakim and Babu Raj Kumar Das respectively. Khan Bahadur Mr. Md. Maula Baksh served as Special Officer for Muslim Education, Dr. W. A. Jenkins as Special Officer for Secondary Education, and Maulvi Kazi Abdul Wadud as Reader and Secretary, Text-Book Committee.

4. **Inspection.**—The following statement indicates the strength of the departmental inspecting staff as it stood on 31st March 1941:—

5. **Extra-departmental agencies.**—During the year under report, the relations between the officers of the Education Department and Executive Officers continued to be cordial and harmonious. District Magistrates and Subdivisional Officers visited a number of high schools and made valuable suggestions for their improvement. As Chief Executive Officer in the district, the District Magistrate has a very important voice in the distribution of grants-in-aid to schools and the constitution of their managing committees. The department is thankful to these officers for their valuable advice and co-operation. The thanks of the department are also due to the Chairmen and Vice-Chairmen of district boards, union boards, municipalities and district school boards for the interest they have shown in the spread of primary and technical education in their respective areas. The department is also indebted to the various missions and philanthropic societies who continued to do good work in the field of education, specially among the girls and educationally backward communities. The Boards of Sonthal Education in the districts of Bankura and Midnapore were responsible for the expansion and improvement of education among the Sonthals in their respective areas. The Railway administrations also deserve mention in this connexion for maintaining schools at important centres for the benefit of their employees' children and throwing them open to children of all classes.

CHAPTER III.

Primary Education.

(Figures in brackets refer to the year 1939-40.)

General statistics.—The policy of planned distribution of primary schools and their amalgamation and consolidation continued to operate during the year, with the result that the number of primary schools fell still further. There was however an increase in the number of efficient schools and in the total number of pupils.

The following table gives comparative figures for the number and cost of all primary schools in Bengal for the years 1939-40 and 1940-41:—

	1939-40.	1940-41.
Number of schools	54,460	51,880
Number of pupils	2,759,390	2,981,053
Cost	Rs. 92,36,093	1,02,18,682

2. **Primary education for Indian boys*—Schools.**—The number of primary schools for Indian boys during the year was 40,730 (41,266).

The table below shows the number of primary schools for Indian boys in the various areas in the Presidency:—

Division.	Number of schools managed by Government.	Number of schools managed by district boards.	Number of schools managed by municipalities.	Number of schools receiving aid from public funds. * Primary education of Indian girls and that of Europeans are dealt with in other chapters.

3. **Pupils.**—The number of pupils in boys' primary schools rose from 2,297,342 (including 278,498 girls) in 1939-40 to 2,551,398 (including 268,272 girls) in 1940-41. The total number of boys in the primary stage, that is to say, of boys attending primary schools and the primary classes of secondary schools was 2,435,149 (2,265,928) of which 1,076,270 (955,672) were Hindus and 1,338,113 (1,176,974) Muslims. The following statement shows the number of boys in the primary stage:—

Class.	1939-40.		1940-41.	
	Number of boys.	Percentage to the total number of pupils.	Number of boys.	Percentage to the total number of pupils.
I ..	.. 1,517,523	67·0	1,504,001	61·8

IV ..	.. 161,920	7·1	190,691	7·8
Total ..	2,265,928	100	2,435,149	100

This appalling wastage must be eliminated at all costs if literacy is to make any headway through the agency of primary schools. There was a sustained effort on the part of the inspecting officers to recognise their responsibilities and the following devices were adopted:—

(*a*) *Better qualified teachers.*—Trained matriculates were recruited in larger numbers for free board schools and under-qualified teachers were replaced as qualified teachers became available.

(*b*) Separate teaching of the lowest class which will for some years to come have the majority of pupils of the school. The device was first introduced by the district school board of Mymensingh and has since been recommended by the Primary Education Committee and accepted by other district school boards. This ensures—

(1) better and more effective teaching of the beginners,

(2) economy in the number of teachers, and

(3) economy in school accommodation.

(*c*) The principle of co-education in primary schools has been accepted by Government. In the event of local opposition to co-education provision for separate teaching of girls of classes III and IV (above 8 years of age) has been made.

(*d*) Experiments were carried out at 5 selected centres under the direction and guidance of the Inspector of Schools, Dacca Range, to discover the most effective and economic system of teaching Bengali according to the recommendations of the Committee on Primary Education appointed by Government in 1938. The experiments go to support the view that the "sentence method" is more effective and economic than the "alphabetic method". The experiments were not, however, carried out on a scale large enough to give the conclusion a scientific value. It is expected that the example will be followed in other parts of the province and the experiment will be tried with a series of Bengali readers written under either system within the vocabulary of the children of the different classes and the results published in educational journals for the edification of teachers and members of the public.

The Primary (Maktab) Final Examination has been gradually gaining in popularity as will be evident from the comparative figures given below for the last two years:—

Year.	Number of candidates.	Number passed.
1939-40	57,997	46,242
1940-41	71,646	55,160

There was a sudden increase in the number of pupils offering for the Primary (Maktab) Final Examination and a number of new centres had to be opened at different places.

4. **Expenditure.**—The total cost of maintaining primary schools for Indian boys came to Rs. 85,20,968 (Rs. 75,41,475). Of the total maintenance charges Rs. 60,94,931 (Rs. 50,72,728) or 71·5 (67·3) per cent. was met from public funds and Rs. 24,26,037 (Rs. 24,68,747) or 28·5 (32·7) per cent. from private sources. The expenditure from public funds was made up as follows:—

Year.	Provincial revenues.	District board funds.	Municipal funds.	Total.
	Rs.	Rs.	Rs.	Rs.
1939-40	33,20,897	7,27,640	10,24,191	50,72,728
1940-41	34,16,242	16,31,101	10,47,588	60,94,931

5. **Primary schools in Calcutta.**—The number of boys' primary schools in Calcutta fell from 573 to 559 and that of pupils attending them from 46,269 to 45,517. The fall in the number of schools was due to the closing of 14 lower primary schools. The decrease in the number of pupils was not, however, due to the fall in the number of schools. The Sub-Inspectors during the round of their inspection often found the roll strength on the wane particularly in the mercantile area in Burrabazar. The reason they found was that some people in that area had left Calcutta with their wards perhaps owing to trade dislocation and war panic. The number of Corporation free primary schools for boys remained stationary at 149. Free and compulsory primary education has been introduced in some parts of the city, but schemes for its extension are kept in abeyance for the present.

6. **Primary education in district school board areas.**—During the year one school board under the Bengal (Rural) Primary Education Act, 1930, in the district of Bakarganj was added to the existing list of school boards at Mymensingh, Dacca, Chittagong, Noakhali, Pabna, Bogra, Rangpur, Dinajpur, Jalpaiguri, Nadia, Murshidabad, Birbhum, Tippera, Faridpur, Howrah and 24-Parganas.

The cess continued to be realised in the districts of Mymensingh, Dacca, Tippera, Chittagong, Noakhali, Faridpur, 24-Parganas and Jalpaiguri and was imposed in the districts of Pabna, Bogra, Rangpur, Nadia, Murshidabad and Bakarganj. The free primary schools have attracted a good number of qualified teachers to the district school board service. The existing grant of five lakhs for primary education was supplemented by an additional grant of eight lakhs during the year towards subsidising the cess receipts of district school boards.

The financial difficulties inherent in any scheme of primary education for the province were to some extent solved during the year by the Cabinet decision of the 7th June 1940 which provided an additional grant of 35 lakhs for primary education from 1945-46 in accordance with the following programme:—

	Lakhs.
1941-42	15
1942-43	20
1943-44	25
1944-45	30
1945-46	35

7. **Free primary education in municipalities.**—During the year under report Government sanctioned the extension of the free primary education scheme to the Muktagacha Municipality. The Chittagong Municipality is the only municipality which has introduced free and compulsory primary education (for boys since 1928 and for girls as well since 1941).

The policy of imparting free primary education in urban areas in the province is being re-examined by Government and steps are being taken according to the recommendation of the Primary Education Committee, to amend the Bengal Primary Education Act of 1919 so as to ensure the provision of adequate facilities in all municipalities. Pending final decision in the matter further expenditure on primary education in municipal areas under Biss' Scheme has been suspended by Government.

8. The interest that was evinced in the problem of adult education in the previous year was continued and the Director of Rural Reconstruction was placed in charge of it. A good deal of planning and propaganda work was done during the year. The efforts made however only touched the fringe of the vast field of work.

9. **School post offices.**—The number of primary school teachers who did postal duties in addition to their own work during the year under report was 285. The remuneration of postal work varied from Rs. 5 to Rs. 30 a month.

10. **Teachers and their training.**—The demand for trained teachers for primary schools not only continued but increased owing to some more districts coming under the Primary Education Act, and a number of new training centres attached to high schools were opened in January 1941 in the Cess-paying districts. There were altogether 131 (116) guru and muallim training schools and training centres at the end of the year under review with a total number of 4,178 (3,432) pupils on the rolls.

A refresher course in up-to-date methods and technique of teaching and organisation of physical and extra-curricular activities including rural reconstruction work was held at certain centres for the existing trained teachers who had received training years ago under the old syllabuses.

The revised curriculum for primary schools came into force with effect from 1st January 1941 in all the districts of the province. Under it the course of studies has been reduced to four years from five and relieved of much of its complexity. The same curriculum is now followed in primary schools as well as maktabs and religious instruction has been introduced in all of them. The lower primary scholarship examination which used to be held at the end of class II has been abolished.

CHAPTER IV.

Secondary Education.

(Figures in brackets refer to the year 1939-40.)

General.—Secondary schools of all kinds both for boys and girls with the exception of middle vernacular schools increased in number during the year under report.

The table below shows the comparative position, in respect of the number of institutions, roll strength and cost, of all secondary schools including those intended for girls:—

	1939-40.	1940-41
Numbr of High English Schools	1,409	1,451
Number of Middle English Schools	2,181	2,273
Numbor of Middle Vornacular Schools	34	27
Number of pupils	634,164	630,826
Cost of maintenance	Rs. 1,92,67,453	1,97,53,963

2. **Secondary education for Indian boys*—Schools and pupils.**—The total number of secondary schools for Indian boys rose during the year from 3,321 to 3,426. High English schools increased from 1,278 to 1,318 and middle English schools from 2,013 to 2,085, while middle vernacular schools decreased from 30 to 23. The number of pupils reading in high English schools rose from 346,833 to 354,963 or by 8,130. But the number of pupils in middle English schools fell from 227,987 to 212,617 or by 15,370, and in middle vernacular schools from 2,922 to 2,041 or by 881. This decrease was due mainly to the exclusion of pupils of primary stages in secondary schools which are now under the free primary education scheme in district school board areas especially in the Chittagong Division. The figures for pupils in 1940-41 includes 1,495 girls reading in high schools, 7,010 girls reading in middle English schools and 188 girls in middle vernacular schools.

The following table shows the distribution of secondary schools according to management:—

	Number of schools.			Number of pupils.		
	High English schools.	Middle English schools.	Middle vernacular schools.	In high English schools.	In middle English schools	In middle vernacular schools.
Government ..	41	4	..	13,781	609	..

*Secondary education of Indian girls and Europeans is dealt with in other chapters.

3. **Expenditure.**—The total cost of maintaining secondary schools for Indian boys came to Rs. 1,59,65,251 (Rs. 1,55,98,394). Of which Rs. 26,37,344 (Rs. 25,73,010) or 16·5 (16·5) per cent. came from public funds and Rs. 1,33,27,907 (Rs. 1,30,25,384) or 83·5 (83·5) per cent. from private sources. High English schools cost during the period Rs. 1,25,21,676 (Rs. 1,21,65,037), middle English schools Rs. 34,14,773 (Rs. 33,99,226) and middle vernacular schools Rs. 28,802 (Rs. 33,431).

The following table shows the expenditure on various types of secondary schools for Indian boys according to sources:—

	High English schools.	Middle English schools.	Middle vernacular schools.
	Rs.	Rs.	Rs.
Government	17,76,177	2,91,156	2,462
District board	20,739	4,69,692	11,659
Municipal board	39,913	25,546	..
Fees	93,61,777	20,94,130	10,190
Other sources	13,23,070	5,34,249	4,491
Total	1,25,21,676	34,14,773	28,802

4. **Manual instruction.**—Seventy-seven (70) high and middle English schools offered such courses as smithy, carpentry, soap-making, umbrella-making, dyeing, weaving, etc., in the year under report. Their utility lies not so much in giving the boys a bias for such industries in future life as in the fact that they foster the growth of creative power in the boys and provide for healthy recreation breaking the monotony of academic work.

5. **Agricultural education.**—In accordance with the programme of work outlined in the scheme for the introduction of agricultural education in non-Government secondary schools, the monthly allowance of Rs. 10 each payable to the teachers trained in agriculture was renewed in favour of 52 teachers. The schools which worked their farms or gardens at a loss also received grants up to a maximum of Rs. 100 in case of a farm and Rs. 20 in case of a garden. Twenty-five middle English schools opened continuation classes and 15 teachers were deputed for training at the Dacca Farm. Signs were in evidence of the growing appreciation of the need for such training among the rural schools which though not admitted to the benefits of the scheme were trying hard to organise instruction in agriculture as an aid to the training of the future citizen.

6. **School Final Classes (Science Side).**—The Science course classes were attached to 7 high schools in Bengal and had an enrolment of 178 pupils on 31st March 1941. Out of 76 candidates sent up for the School Final Examination (Science Side) 55 were successful.

7. **Results of Matriculation Examination.**—The total number of candidates who appeared at the Matriculation Examination of the Calcutta University and the High School Examination of the Dacca Board of Intermediate and Secondary Education in 1941 was 25,132 (39,142) of whom 14,222 (20,757) came out successful.

8. **Curriculum.**—The revised Matriculation Regulations came into force with effect from the Matriculation Examination of 1940.

The Dacca Board has also adopted a revised regulation introducing the Vernacular as the medium of instruction and examination in high schools under its control. This will take effect from the examination of 1942 in all subjects other than English and Mathematics and from the examination of 1944 in all subjects other than English.

9. **Grant-in-aid system.**—The general principles in respect of the distribution of grants underwent no change during the year under review. In the face of financial difficulties conditions relating to the maintenance of the scale of expenditure had to be relaxed in the case of some schools. In backward localities particularly rigid adherence to the grant-in-aid rules, was not always possible. It is admitted on all hands that the system is of great importance inasmuch as it helps in the maintenance of efficiency and morale in the schools participating in it.

10. **Teachers.**—There were 28,567 male teachers in secondary schools in the year under report of whom 6,012 only were trained. The pay and prospects of teachers in private schools remained as poor as before with the result that most of them had perforce to take to private tuition and other occupations to supplement their income.

11. **Training of teachers.**—The two Government Training Colleges at Calcutta and Dacca which train teachers for work in secondary schools had an enrolment of 172 (198) students in 1940-41, all reading for the B. T. Course. The cost of maintenance of the two colleges amounted during the year under report to Rs. 1,00,769 (Rs. 98,514).

During the year the University of Calcutta opened a training department for secondary school teachers reading for the B. T. Degree, thus effecting a very much needed increase in the facilities for training. The short courses of training in special subjects, such as Science and Geography, which had been inaugurated by the University a few years ago, were continued during the year.

The scheme of permitting graduate teachers of secondary schools to appear at the B. T. Examination as private candidates under certain conditions was also continued in the year under report.

In addition, the training department of St. Xavier's College which had been opened in the previous year continued to function and had 15 (10) students on its rolls.

Altogether 258 candidates appeared at the B. T. Examination of Calcutta University and 152 came out successful. The examinations of Dacca University were postponed for some time owing to serious communal disturbances in the town.

As in the previous year there were 4 normal training schools meant primarily for those who intend to teach in the junior forms of secondary schools. Matriculation is the minimum qualification required of a candidate seeking admission to these schools, the enrolment of which during the year was 344 (352) The upkeep of these institutions cost Government Rs. 90,225 (Rs. 90,273). Out of 168 candidates sent up for the last examination 148 came out successful.

12. **General.**—The existing system of secondary education suffers from many and serious defects and the mending of them presents a problem which is recognised as being one of the most serious that confronts the educationists and statesmen of the day.

The changes that have been made in the Matriculation curriculum of the University, widening its scope and recognising the need for extra-curricular activities, are excellent, but they demand more accommodation and the services of persons properly trained to teach the new subjects.

Two of the greatest needs are more generous grants from public funds and the creation of a body which has the leisure and capacity to exercise effective control over secondary education.

CHAPTER V.

University and Collegiate Education.

(Figures in brackets refer to the year 1939-40.)

1. **Calcutta University.**—The Hon'ble Khan Bahadur (now Sir) M. Azizul Haque, C.I.E., B.L., M.L.A., continued to be Vice-Chancellor of Calcutta University during the year under report. A notable feature of the year was the opening of the Department of Islamic History and Culture in the Post-graduate stage from July 1940. Certain changes were made in the syllabuses of studies in History for the I.A. and B.A. (Pass and Honours) Examinations. "A special period of the History of Hindu Colonial expansion and a special period of the History of Islam outside India" was added as an alternative subject in the Second Paper in History for the I.A. Examination and the following new subjects were introduced in the courses of studies for the B.A. Examination:—

Indo-Islamic and World History.

Islamic History and Culture.

Ancient Indian and World History.

The most noteworthy donations received by the University during the year was a sum of Rs. 60,000 from the Board of Trustees, Sir Dorabji Tata Trust, towards the purchase of a "Cyclotron" Another endowment, unique in its character, offered to the University, was from Mr. Ranjit Palchowdhury of the Mahesganj Estate, district Nadia, for the establishment of a Fellowship to be called "Bipradas Palchowdhury Fellowship". The value of the endowment is Rs. 50,000 and its object is to enable the University "to invite competent scholars from foreign countries to visit India and study under the auspices of the University aspects of Hindu Civilisation and Culture".

The following table shows the number of students under different categories who attended the University classes during the last two years:—

	1939-40.	1940-41.
In M. A. classes	1,812	1,725
In M. Sc. classes	258	305
Under-graduate students	214	197
Women students	139	150

2. **Dacca University.**—Dr. R. C. Majumdar, M.A., Ph.D., continued to be Vice-Chancellor of Dacca University during the year. An important development during the year was the establishment of an Appointment Advisory Board with its office in Calcutta with an Honorary Employment Advisor and a whole-time paid Secretary. The office of the Board has been located at 12, Dalhousie Square, Calcutta. The new Botanical Laboratory has been constructed and as the one-storeyed building originally planned proved insufficient, a second storey has been added to it. The report of the Committee appointed by the Government to examine the scheme for instituting a medical faculty in the University has been published and the matter is now under the consideration of Government. The work of the University was carried on smoothly and with unabated zeal till the middle of March 1941 when owing to unfortunate communal disturbances in the city all normal activities of the University had to be suspended for a period in March and April and the long vacation given earlier than usual The most serious effect of the disturbances has been the postponement of the University Examinations. There was a total enrolment of 1,548 (1,509) students of whom 973 (including 88 women students) were reading for Arts Degree, 352 for Science Degree, while 86 were in the Law Department, 110 in the Commerce Department and 27 engaged in research work.

3. **Board of Intermediate and Secondary Education, Dacca.**—The period under report is marked by the premature death of Mr. J. N. Roy who had worked as Secretary to the Board and also as Assistant Inspector of Students' Residences, Dacca, since March 1936. The late Mr. Roy rendered loyal and efficient services which were highly appreciated by the Board.

The cost of maintaining the Board during the year amounted to Rs. 50,176. The number of Islamic Intermediate Colleges under the Board rose from 4 to 5 by the grant of temporary recognition by the Board up to June 1942 to the Intermediate Classes attached to the Abdul Ghani High Madrasah, Magura, in the district of Jessore. The number of general Intermediate Colleges under the Board remained unchanged at 5.

4. **Colleges.**—The total number of Arts Colleges in Bengal rose during the year from 58 to 62 of which 51 were for men and 11 for women. The increase of four is due to the establishment of the Fazlul Huq Adina College, Malda, the Fazlul Huq College, Chakhar, Women's College, Calcutta, and the Intermediate Classes attached to the Abdul Ghani High Madrasah, Magura, in the district of Jessore. The total enrolment of these colleges was 34,094 (33,340) and their cost of maintenance was Rs. 46,07,539 (Rs. 43,73,141). Of the 51 Arts Colleges for men (including the Islamic Intermediate Colleges) 11 were maintained by Government, 22 were aided and 18 unaided.

The following figures give the enrolment and the cost of upkeep of men's colleges for the last two years:—

During the year under review grants-in-aid amounting to Rs. 2,37,000 were distributed to non-Government Arts Colleges. On the recommendation of the University of Calcutta, a sum of Rs. 80,000 was also distributed for the improvement of libraries, laboratories and gymnasia.

5. **Government Colleges.**—The number of Government Colleges for men continued to be 11 but their enrolment rose from 4,475 to 4,501. The cost of maintenance of these colleges amounted during the year under report to Rs. 15,44,960 (Rs. 15,49,661) of which Rs. 10,89,814 came from Provincial revenues. The average annual cost of educating a student was Rs. 343 of which Rs. 242 was met by Government.

6. **Non-Government Colleges.**—Besides the colleges maintained by Government, there were 40 other Arts Colleges for men in Bengal of which 22 received aid from Government and 18 were maintained entirely from private sources.

In the aided colleges the number of students at the end of the year was 13,707 (13,960) and the cost of their upkeep amounted to Rs. 15,94,148 (Rs. 15,50,209) of which Rs. 2,65,470 was contributed from provincial revenues.

The roll strength of unaided colleges was 13,885 (13,099) and their cost of maintenance came to Rs. 11,62,147 (Rs. 10,86,795).

CHAPTER VI.

Professional and Technical Education.

(Figures in brackets refer to the year 1939-40.)

Law Colleges and Classes.—Arrangements for imparting legal education existed, as previously, in three institutions in Bengal, *viz.*, the University Law College, Calcutta, the Ripon Law College, Calcutta, and the Law Department of the University of Dacca. The number of students reading in the three institutions at the end of the year was 1,614 (1,748), of whom 1,205 (1,420) were Hindus, 391 (276) Muslims and the rest belonged to other communities. The upkeep of the University Law College, Calcutta, and the Ripon Law College, amounted to Rs. 1,70,188 (Rs. 1,78,027) during the year. Out of 548 candidates who appeared at the Final B.L. Examination from the three institutions 356 came out successful.

2. **Medical Colleges and Schools.**—Higher medical instruction is provided in three institutions, *viz.*, the Calcutta Medical College, the Carmichael Medical College, Belgachia, and the School of Tropical Medicine and Hygiene, Calcutta. The three institutions enrolled 1,504 (1,535) students including 41 (38) women. Of the total roll strength 1,346 were Hindus, 87 were Moslems, 55 were Anglo-Indians and Europeans and 16 belonged to other communities. The cost of maintaining these institutions during the year under report amounted to Rs. 8,34,770 (Rs. 9,01,272). The three institutions presented 617 candidates at the Final Examination of whom 260 came out successful. The Committee appointed by Government to examine the scheme for instituting a medical faculty in Dacca University has unanimously recommended the institution of a medical faculty in the University by converting the local medical school into a medical college. The matter is now under the consideration of Government.

As in the previous year, there were 9 medical schools which enrolled 2,467 (2,469) pupils, including 94 (82) women and cost Rs. 5,95,662 (Rs. 5,65,823) for their maintenance. Altogether 1,128 candidates appeared from these schools at the Final Examination, of whom 524 were declared successful.

3. **Veterinary College, Belgachia.**—The Veterinary College, Belgachia, had 225 (210) students on 31st March 1941. Of the total enrolment 130 were Hindus, 85 were Muslims, the rest came from other communities. Two hundred and nineteen candidates sat for the annual examination of the college of whom 173 got through.

4. **Bengal Engineering College, Sibpore.**—The number of students under training in the Bengal Engineering College during the year was 293 (350). The decrease was due to the fact that no admissions were made to the first year class, in November 1940, owing to the starting of the Technical Training Scheme of the Government of India at this college. Of the total number of students 153 were in the Civil Engineering Department, 31 in the Mechanical Engineering Department, 39 in the Electrical Engineering Department, 14 in the Metallurgy Department, 6 in the Diploma Classes in Mechanical and Electrical Engineering and 50 in the Industrial Department. Of these students 223 were Hindus, 55 were Muslims, 9 Anglo-Indians and Europeans and the rest came from other communities. The cost of the upkeep of the college came to Rs. 3,68,369 (Rs. 3,55,869) of which Rs. 2,98,632 (Rs. 2,80,278) was contributed from provincial revenues. The combined Technical Training Scheme of the Civil Aviation Directorate and the Labour Department of the Government of India has been in operation at this college since the middle of February 1941. The construction of new barracks on the agricultural field within the college compound for the trainees was completed in the year under report. The results of the college in the various examinations held during the year are shown below:—

5. **Ahsanullah School of Engineering, Dacca.**—The roll strength of this school on the 31st March 1941 was 533 (458). Of the students 296 were Hindus, 232 were Muslims and the rest came from other communities. The cost of maintaining the school was Rs. 1,28,174 (Rs. 1,32,695) of which Rs. 81,009 (Rs. 97,061) came from provincial revenues. The school passed 78 out of 97 in the Overseer Examination and 90 out of 151 in the Sub-Overseer Examination.

6. **Bengal Survey School, Mainamati.**—This school had an enrolment of 75 (69) students. The cost of maintaining the school during the year was Rs. 19,472 (Rs. 17,998) of which Rs. 13,087 (Rs. 11,529) was contributed from the provincial revenues. The school passed 22 out of 32 in the Amin Examination and 32 out of 35 in the Survey Final Examination.

7. **Art School.**—During the year under report there were 6 Art Schools in the Presidency, the chief of which was the Government School of Art, Calcutta. Of the other 5 schools, 4 were in receipt of grants from the public funds. The Government School of Art, Calcutta, had 243 (249) students including 14 (10) lady students in the various departments; of these 220 were Hindus, 14 were Muslims and the rest came from other communities. Eighteen students appeared at the Final Examination and all of them came out successful. The cost of the upkeep of the school was Rs. 60,218 (Rs. 58,785).

8. **Commercial education.**—Facilities for advanced commercial education were provided by the two Universities, and the Commerce Departments of the Vidyasagar College and the City College, Calcutta. There were 716 and 82 candidates for the B.Com. Examination from the Universities of Calcutta and Dacca respectively of whom 320 and 39 came out successful. The Dacca Board of Secondary and Intermediate Education offers Commerce as a subject for the Intermediate Examination in one of the groups, *viz.*, Group E.

The number of commercial schools in the province at the end of the year under report was 29 (26), of which one, the Government Commercial Institute, Calcutta, was managed by Government. Three were aided and the rest unaided. The Government Commercial Institute, Calcutta, had on its rolls 465 (495) students, of whom 397 were Hindus, 60 were Muslims and the rest coming from other communities. The cost of the upkeep of the institute was Rs. 64,337 (Rs. 66,637) towards which Rs. 33,999 (Rs. 36,771) was contributed from provincial revenues. The number of students who sat for and passed the Government Commercial Course Final and Special Examinations from this institute and from affiliated institutions and as private candidates is given below:—

	Number appeared.	Number passed.
Final Examination—		
Government Commercial Institute	130	75
Special Examinations—		
Government Commercial Institute and Affiliated Institutions	570	349
Private	24	12

The scheme for the revival of Bankers' Classes has been finally approved by Government. The formation of an Employment Sub-Committee under the auspices of the Board is an outstanding event of the year: it has been named the Government Commercial Institute Vocational Guidance Department. The main object of this department is to establish a closer contact with the business houses as well as different departments of Government with a view to securing employment for the trained products of this institute.

9. **Weaving institute.**—The weaving schools in the Presidency continued, as before, to be controlled by the Director of Industries. Weaving is taught in a few general secondary schools, but for the most part the training was given in special weaving schools (some of which were peripatetic), and through demonstration parties. The chief of these weaving schools is the Bengal Textile Institute, Serampore. It had under training during the year 285 (219) pupils. Its maintenance during the year cost Rs. 68,743 (Rs. 62,311) of which Rs. 68,443 came from provincial revenues. The institute presented 124 candidates at the examination of whom 112 were successful.

10. **Music schools.**—There were 7 music schools in the Presidency which imparted specialised training in music—both classical and modern. Indian music has been included in the syllabus for the Matriculation Examination and many high and middle schools for girls now have arrangements for teaching music.

11. **Agricultural schools.**—An account of steps taken by the department for the teaching of agriculture in general schools is given in the chapter on secondary education.

There were 3 (3) agricultural schools and 1 (2) sericulture schools in the Presidency during the year under report. The abolition of the Peddie Silk Reeling Institution in the district of Malda accounts for the decrease in the number of sericulture schools. These schools had 143 (214) students on their rolls.

12. **Other technical centres.**—The following senior technical schools which afforded facilities for vocational education may be specially mentioned in this report:—

(1) The Calcutta Technical School provides for theoretical training with laboratory practice of apprentices in various engineering and other concerns in and around Calcutta. It had 390 pupils on its rolls and its cost of maintenance amounted during the year to Rs. 82,719 of which Rs. 42,784 came from provincial revenues.

(2) The Kanchrapara Technical School had 75 students on the 31st March 1941. Forty-eight candidates appeared in different subjects at the Board of Apprenticeship Training Annual Examination and 46 came out successful. During the year 1940-41 ten apprentice mechanics completed the training and all of them were provided with employment.

CHAPTER VII.

Education of Indian Girls and Women.

(Figures in brackets refer to the year 1939-40.)

Institutions and pupils.—In 1940-41 the total number of educational institutions of all types and grades meant for Indian girls fell from 13,805 to 11,680. This fall was in the main due to amalgamation of primary schools consequent on a policy of concentration of contiguous weak and inefficient schools. The number of girls reading in girls' schools was 500,211 (526,087) and of those reading in boys' as well as girls' schools was 829,242 (796,279). Of the total number of girls under instruction 370,696 were Hindus and 444,290 were Muslims and the rest of other communities.

2. **Controlling agency.**—There were, as before, 12 Assistant Inspectresses for the inspection of girls' schools in the Presidency under the general control of the two Inspectresses (one for the Presidency and Burdwan Divisions and the other for the Dacca, Chittagong and Rajshahi Divisions).

3. **Collegiate education.**—During the year under report the number of Arts Colleges for women was 11 (10). The increase of one is due to the addition of the Women's College, Calcutta. Of these Arts Colleges for women 3, *viz.*, the Bethune College and the Lady Brabourne College in Calcutta and the Eden Intermediate College in Dacca, are under the direct management of Government and the rest under private management. The number of students in these Arts Colleges for women was 1,965 (1,806). Besides this number there were 788 women students in men's colleges and in University classes. The statement below gives particulars relating to Arts Colleges for women:—

*Expenditure incurred for the maintenance of the Women's Department of the Asutosh College, Calcutta, and the College Department of the Gokhale Memorial School, Calcutta, has not been separately shown.

Altogether 1,290 (1,111) women students sat for the Intermediate Examinations, 514 (457) for the Bachelor's Degree Examinations and 82 (53) for M.A. and M.Sc. Examinations during the year under review and of these 788 (730), 317 (272) and 65 (42) came out successful.

The Bethune College will have affiliation in Biology up to the I.Sc. standard from the next session. This will enable students to avail themselves of the facilities offered by the University regarding admission to the Medical College and meet a real need.

Buildings for the Eden Intermediate College and School are under construction at the new civil station at Ramna. The year under report ended with serious communal disturbances in the city of Dacca causing dislocation in the smooth working of the institutions there.

The construction of buildings for the Lady Brabourne College which was in progress during the year has since been completed and the college has moved from the rented buildings to its own.

4. **Secondary Schools.**—(*i*) *High Schools.*—There were 94 (87) high schools for Indian girls of which 6 were managed by Government, 83 (77) were aided, 1 managed by municipality and the rest unaided. There were also separate girls' classes attached to some boys' high English schools. The demand for increased facilities for the education of girls was as keen as ever. The number of girls reading in girls' schools rose from 24,782 to 27,191. Two thousand two hundred and sixty girls sat for the Matriculation Examination of 1941 and 1,181 came out successful.

(*ii*) The number of middle English schools for Indian girls rose from 165 to 185 but the middle vernacular schools for girls remained stationary at 4; these schools taught 28,760 (26,410) and 637 (630) girls respectively. The demand for secondary education for girls was mostly confined to the district and subdivisional headquarters although some of the bigger rural centres had converted their upper primary schools into middle English schools. The revised syllabus of the University Matriculation Examination now in force in all high schools has provided for special subjects to meet the special requirements of girls.

Government sanctioned during the year a sum of Rs. 12,000 as furniture and equipment grants to non-Government secondary schools in connection with the teaching of various subjects under the new Regulations.

High schools for girls cost Rs. 15,43.601 (Rs. 14,53,249) and middle schools Rs. 6,07,682 (Rs. 5,67,098) during the year; of these amounts Rs. 5,19,640 (Rs. 5,07,487) and Rs. 2,59,468 (Rs. 2,36,154) respectively came from public funds.

5. **Primary schools.**—At the end of the year 1940-41, the number of primary schools for Indian girls was 11,135 (13,180) and the number of girls reading in primary schools was 740,644 (718,122). The Calcutta Corporation maintain 85 free primary schools as well as give financial help to many Government aided primary schools in Calcutta for the improvement of primary education. Among private agencies the Nari Siksha Samiti, the Society for the Improvement of Backward Classes and Missionary Societies continued to work as usual with unabated zeal and energy for the spread of girls' education in the province. Primary schools for Indian girls cost Rs. 16,30,885 (Rs. 16,21,993) of which Rs. 11,70,076 (Rs. 11,54,747) was contributed from public funds.

6. **Special schools.**—The number of technical, industrial and other special schools for Indian girls during the year was 100 (88) with a total enrolment of 7,669 (6,068) pupils.

7. **Needle-work.**—The Lady Carmichael needle-work competition is attracting more and more girls and needle-work is being taken up enthusiastically by all grades of schools. During the year under review an examination called the Lady Brabourne Needle-work Diploma has been instituted.

8. **Handwork exhibition.**—The Fourth Annual Handwork Exhibition was held in the premises of the Government Hindu Female Training School, Calcutta. Her Highness the Dowager Maharani Sucharu Devi of Mourbhanj performed the opening ceremony and the function proved to be a very successful one.

9. **Training of teachers.**—Women teachers of secondary schools continued to receive professional training at the Training Departments of the Scottish Church College and the Loreto House, Calcutta. Altogether 51 students were trained in these institutions. Thirty-one women teachers were also trained at the Dacca Training College and in the Teachers' Training Department of the Calcutta University.

The number of training schools for women which afforded training facilities to women teachers employed in primary schools and in the lower classes of secondary schools remained stationary at 13. Of these schools 3 were managed by Government and 10 were under mission and private management. These schools had 321 (383) pupils on their rolls on the 31st March 1941. As in the previous year a refresher course was held in the United Missionary Training School, Calcutta, in July 1940, at which eminent educationists delivered lectures on topics useful to the teachers. The demand for trained teachers is on the increase but the supply is deplorably inadequate as will be shewn by the following table which gives the numbers of trained women teachers in high, middle and primary schools:—

	Women teachers.	
	Total number of teachers.	Number of trained teachers.
In primary schools	5,626	866
In middle schools	918	313
In high schools	1,076	423

CHAPTER VIII.

Education of Anglo-Indians and Europeans.

(Figures in brackets refer to the year 1939-40.)

Controlling agency.—Dr. H. Thomas continued as Inspector of European Schools, Bengal, during the year.

2. **Schools.**—The number of institutions for the education of Anglo-Indians and Europeans rose during the year under review from 65 to 66. Of these 63 (61) were for general education and 3 (4) for special education. The increase of two in the number of institutions for general education was due to the inclusion of two unaided institutions, *viz.*, (1) Bengal-Nagpur Railway European School, Santragachi, and (2) Bhatpara District European Private School. The decrease of one in the number of institutions for special education was due to the closing down of the Dow Hill Training College, Kurseong, in December 1940. Two of these institutions, *viz.*, Victoria Boys' School, Kurseong, and Dow Hill Girls' School, Kurseong, are under the direct management of Government. The rest are managed by Railway authorities or by religious or philanthropic bodies.

There are three institutions which can be classed as "Special": they are:—

(1) the Commercial Classes attached to the Young Women's Christian Association,

(2) the Children's House, Kurseong, and

(3) the Fendall Home, Calcutta.

3. The following table shows the distribution of European schools according to management and their roll strength:—

	1939-40.		1940-41.	
	Number of schools.	Number of pupils.	Number of schools.	Number of pupils.
Government	3	336	2	365
Church of England	9	2,023	9	2,076
Church of Rome	29	7,182	29	7,184
Non-conformist	4	901	4	909
Jewish	3	492	3	410
Armenian	1	99	1	113
Seventh Day Adventist ..	1	64	1	66
Undenominational	15	1,633	17	1,652
Total ..	65	12,640	66	12,775

The total number of pupils reading in schools for Europeans and Anglo-Indians thus rose during the year from 12,640 to 12,775 or by 135. Of the 12,775 pupils, 6,938 (6,832) were boys and 5,837 (5,808) were girls. The number of non-European pupils in these schools was 3,198 (3,155), this number including Jews, Armenians, Indian Christians and others.

4. **Expenditure.**—The total cost of maintaining schools for Europeans amounted during the year to Rs. 39,11,975 (Rs. 38,78,431) including boarding charges of Rs. 11,23,314 (Rs. 10,47,858). The amount was derived from the following sources:—

	1939-40.	1940-41.
	Rs.	Rs.
Provincial revenues	9,87,100	9,95,291
Municipal funds	31,170	31,078
Fees	16,71,830	17,99,342
Other sources	11,88,331	10,86,264
Total ..	38,78,431	39,11,975

5. **Scholarships and stipends.**—The total amount expended on scholarships and stipends during the year 1940-41 was Rs. 35,084 (Rs. 32,249). The figure represents the amount actually drawn by recipients and exclude those scholarships and stipends which were awarded by other provinces but paid in Bengal.

6. **Teachers.**—There were 857 (850) teachers employed in European schools in Bengal during the year. Of these 205 were graduates, 533 (including 141 graduates) were trained and 324 (including 64 graduates) were untrained.

7. **Training of teachers.**—No teachers were sent to the Chelmsford College, Ghoragali, Punjab, for training during the year 1940-41. Arrangements have been made for the training of male Physical Instructors for European Schools at the Bengal Government College of Physical Education by reserving a seat for European and Anglo-Indian teachers at that college and by creating a stipend of Rs. 50 per mensem. During the year two teachers took advantage of the short course on manual work provided at the Bengal Engineering College in September 1940. The Dow Hill Training College, Kurseong, was closed with effect from 1st December 1940. In order to maintain a continuity in the supply of trained teachers, however, Government sanctioned five scholarships of Rs. 50 per mensem each for ten months in each college session for a period of two years from 1940-41 at approved training colleges of other provinces. Five women teachers were deputed—three to the All Saints' Diocesan Training College, Naini Tal, and two to the St. Mary's Training College, Poona, Bombay. At the annual examination of the second year class of the Dow Hill Training College, Kurseong, in November 1940 eight students presented themselves and all were successful. As there is no suitable institution in Bengal for the training of Domestic Science Teachers, Government sanctioned the award annually of one stipend of Rs. 50 per month tenable at the Lady Irwin College, New Delhi, for the full teachers' course of three years. During the year a student teacher was deputed for the first time for the said training.

Arrangements have also been made for the training of women teachers in physical education at the newly-established Physical Training College for Women under the Physical Directress. Six stipends at Rs. 40 per month each for nine months a year were sanctioned for European and Anglo-Indian women teachers for training here.

8. **Examination.**—The following table shows the results of the various examinations held in 1939-40 and 1940-41:—

	1939-40.				1940-41.

9. **Education of sub-normal children.**—The Children's House, Kurseong, which provides special training to sub-normal European and Anglo-Indian Children had 14 (25) pupils on 31st March 1940. Stipends amounting to Rs. 1,480 were awarded by Government towards the maintenance and education of five of these children.

10. **Rescue and rest home for girls.**—The Fendall Home, Calcutta, is a rescue home for destitute European and Anglo-Indian girls and maintains them and gives them such training as will prepare them for a career in life. On the 31st March 1941 there were 36 (36) girls in residence. The Home received a grant of Rs. 960 from Government. The total expenditure incurred by the institution amounted during the year to Rs. 14,431.

11. **Trust funds.**—(1) *Sussex Trust.*—The income of the fund during the year 1940-41 was Rs. 32,010 and the expenditure Rs. 29,030. Eight overseas scholars and 26 local scholars profited by the scholarships awarded.

(2) *Doveton Trust.*—Altogether 56 scholarships were awarded during the year out of the income derived from this fund. The total receipts (including the opening balance on 1st April 1940 and the interest on Government securities accrued during the year) derived from the Doveton Trust Fund was Rs. 8,859-14-5 and the total expenditure Rs. 6,180-11-6, leaving a closing balance of Rs. 2,379-2-11.

12. **Provincial Board of Anglo-Indian and European Education.**—The Provincial Board of European and Anglo-Indian Education held as usual four meetings during the year under review. Various matters were discussed in them, the most important being the following:—

(*a*) Teaching of Bengali in European Schools and modification of the Bengali Syllabus for the Cambridge School Certificate Examination.
(*b*) Reconstitution of the Advisory Committee for the Higher Grade Schools Examinations.
(*c*) Introduction of Cadet Corps in European Schools with the approval of the Military authorities.
(*d*) Proposal for the inclusion of a new subject "Indian Administration" in the Cambridge School Certificate Examination.
(*e*) The Bengal Secondary Education Bill, 1940.
(*f*) Exemption of European Schools from the operation of the rules relating to the medium of instruction and examination in future under the revised Matriculation Examination.

CHAPTER IX.

Education of Muslims and Other Special Classes.

(Figures in brackets refer to the year 1939-40.)

Education of Muslims.—The total number of Muslim students reading in all grades of educational institutions for Indians was 2,073,663 (1,950,294), of the total number 1,629,373 were males and 444,290 were females. The proportion of Muslim students to the total number of pupils under instruction at the end of the year 53·1 (54·1) per cent. The statement below shows comparative figures of Muslim pupils in different grades of institutions for the year 1940-41 and the preceding year:—

	1939-40.		1940-41.	
	Number of Moslem pupils.	Percentage.	Number of Moslem pupils.	Percentage.
Art colleges	7,008	19.1	7,676	20.7
Professional colleges	750	11.8	815	12.2
High stage	46,314	24.8	50,433	25.3
Middle stage	51,104	28.7	56,876	30·1
Primary stage	1,667,820	55.3	1,763,096	54.9
Special schools	138,850	73.8	141,918	72.1

2. **Special institutions for Muslims.**—(a) Besides the ordinary schools and colleges which are open to students of all communities there are a number of institutions of all grades which offer special facilities to Muslim students. Those for higher education are Islamia College, Calcutta; the Lady Brabourne College, Calcutta; the Arabic Department of the Calcutta Madrasah and the five Islamic Intermediate Colleges at Dacca, Chittagong, Serajganj, Hooghly and Magura. The total number of students in these Islamic Intermediate Colleges was 332 (307). The curricula and examinations of these colleges are controlled by the Dacca Board of Intermediate and Secondary Education.

(*b*) Madrasahs are special institutions which impart religious along with secular education to Muslim boys. There are two types of them in the province—the old type and the reformed scheme. The high madrasahs under the reformed scheme are practically high English schools on Islamic basis. In junior forms of the reformed scheme madrasahs the middle English curriculum is followed except in drawing and science which have been replaced by Arabic and Rituals of Islam as compulsory subjects. The curriculum and examinations of high madrasahs are regulated by the Board of Intermediate and Secondary Education, Dacca, and those of junior madrasahs by the department. The course of studies and examinations of the old type madrasahs are controlled by the Board of Central Madrasah Examination, Calcutta. The most important of this type of madrasahs is the Arabic Department of the Calcutta Madrasah. The following statement gives figures for both types of madrasahs:—

	Number of madrasahs	Number of pupils.	Cost of maintenance.	Cost of public funds
			Rs.	Rs.
(*a*) High madrasahs (New type) ..	46	9,866	4,05,802	2,28,476
(*b*) Junior madrasahs (New type)	678	70,674	11,33,675	4,59,609
(*c*) Senior madrasahs (Old type) ..	115	16,060	3,86,487	1,54,465
(*d*) Junior madrasahs (Old type) ..	94	6,149	48,148	4,845
Total ..	933	102,749	19,74,112	8,47,395

The percentage of Muslims who favour the system of education prevailing in the old scheme madrasahs is still fairly large, and the new policy of subsidising old scheme madrasahs has helped in their growth and continuance and met with appreciation from a considerable proportion of Muslim community.

(*c*) With the introduction of a uniform curriculum for all types of primary schools the difference in nomenclature between primary schools and maktabs has ceased to exist. Under the new curriculum provision has been made for imparting religious instructions to the pupils of all communities.

(*d*) The number of muallim training schools which were intended to train maktab teachers remained stationary at 6.

(*e*) *Quoran schools.*—These schools teach the reading of the Holy Quoran and the rituals of Islam and Urdu. Their number was 88 (81).

3. **Education of Muslim girls.**—During the year under review the number of Muslim girls reading in all classes of recognised institutions was 434,942 (429,064). Of these 164 (108) were in Arts and Professional Colleges, 592 (492) were in the high stage, 1,250 (1,050) were in the middle stage, 424,993 (421,420) were in the primary stage and 7,943 (5,962) were in special schools.

4. **Special facilities for Muslims.**—The special facilities in education which were enjoyed by Muslim students in previous years in the matter of reservation of seats in Government and aided schools, the grant of scholarships, stipends and free-studentships were continued during the year under review.

5. **Education of chiefs and nobles.**—There is no institution in Bengal which is meant specially for educating the sons and wards of chiefs and nobles. But there are special arrangements for the education of the boys of the Nizamat family in the Nawab Bahadur's Institution, Murshidabad.

where a separate hostel has been reserved for them. The number of Nizamat boys in residence was 26 as in the previous year and the maintenance of the hostel cost Government Rs. 5,223.

6. **Education of the children of backward classes.**—The number of boys and girls of educationally backward classes under instruction in various types of schools and colleges in Bengal (as indicated below) will give some idea of what progress has been achieved by them in education during the period under report:—

	Boys.	Girls.	Total.
Classes of institutions—			
Arts colleges	1,678	21	1,699
Professional colleges	331	1	332
Secondary and primary education ..	422,431	91,911	514,342
Special schools	12,078	419	12,497
Unrecognised institutions	8,427	1,218	9,645
Total ..	444,945	93,570	538,515

The corresponding figures for the totals in the previous year were 391,776, 81,627 and 473,403 respectively. It would thus appear from the table above that the number of pupils from educationally backward classes rose from 473,403 to 538,515. Special educational facilities have been provided for the education of the backward classes. An amount of Rs. 10,000 has been sanctioned by Government to supply slates and books to the primary school pupils belonging to Scheduled Castes among whom the percentage of literacy is very small. Rs. 8,000 has also been sanctioned for the Scheduled Castes high schools for the purchase of Science and Geography apparatus. An amount of Rs. 72,000 has been distributed for stipends to Scheduled Caste pupils of high stage. Apart from Rs. 5 lakhs grant set apart for the Scheduled Castes, an amount of Rs. 28,344 was spent in awarding stipends to college students belonging to them. Besides, some stipends were granted to 5 Scheduled Caste students of the training colleges. It is hoped that with the combined efforts of Government and the leading members of these classes they will make rapid strides in the field of education and gradually improve their cultural outlook. The following paragraphs indicate the progress that was made noticeable in the education of the backward classes in each of the divisions of the Presidency:—

(i) Calcutta.—During the year there were 11 primary schools with 567 pupils under the management of different missions for the education of the backward classes. Besides there were 1 technical school and 6 night schools under the "Working Men's Institute, Calcutta". The Harijan Utthan Society managed 25 primary schools with 956 pupils. Besides those who were receiving education in these schools, which are exclusively meant for educationally backward classes, there were 13,716 pupils belonging to these classes in other institutions.

(ii) Presidency Division (outside Calcutta).—During the year under review there were 135,871 (85,489) boys and 28,561 (19,929) girls of the backward classes under instruction. The schools which were chiefly intended for the education of backward classes during the year under report were 6 high English, 56 middle English and 1,081 primary schools.

(iii) Burdwan Division.—The education of the Sonthals in the districts of Midnapore, Bankura and Birbhum was mainly in the hands of the Mission Bodies as in the previous year. The funds allotted for their education were administered by the Boards of Sonthal Education in Bankura and Midnapore and the District School Board in Birbhum. The Sonthal High English School at Bhimpore (Midnapore) under the management of the American Baptist Mission had 184 (188) pupils on the rolls. The Middle Vernacular School for Girls at Bhimpore enrolled 137 pupils including 52 boys. The Methodist Mission at Bankura managed one middle vernacular school and one guru training school chiefly intended for Sonthal boys. There were altogether 262 Sonthal primary schools with 11,568 pupils. The total expenditure on Sonthal education during the year under report amounted to Rs. 57,909 of which Rs. 42,205 came from provincial revenues. The Suri Municipality in the district of Birbhum maintained a Biss' scheme free primary school specially meant for sweepers' children.

(iv) Dacca Division.—In the Dacca Range there were 5 middle English schools and 78 primary schools meant for aboriginal children. In addition there were 2 middle English and 110 primary schools mainly attended by pupils of other backward classes. There were 12 high English and 34 middle English schools and a large number of primary schools in the Dacca Division chiefly intended for Namasudras. There were two schools for Muchis—one in Dacca and the other in Mymensingh with 132 pupils. The school for the children of Mundas at Sarshi continued to function with 30 girls and 8 boys. There were as before 5 Burmese primary schools in Cox's Bazar subdivision managed by the District Board of Chittagong. These schools were chiefly intended for the elementary education of the Arakan Buddhists (commonly known as Maghs) of Cox's Bazar. Besides these there were one aided middle English school at Ramu and two aided primary schools (one for boys and the other for girls) chiefly intended for the education of Magh pupils in Cox's Bazar Municipality. In addition to these there were 32 Kyaung schools which impart free religious education to the Burmese pupils. An aboriginal hill tribe known as the Tipra tribe had a school in the Lalmai Hills in the district of Tippera.

(vi) Rajshahi Division.—The Rajbansis, Namasudras, Sonthals, Maolos, Bhutias, Lepchas and other minor castes are the educationally backward classes of people in this division. There was a Board of Sonthal Education in the district of Malda. There were 1 high English and 32 middle English schools chiefly meant for the pupils of the backward classes. Mission schools mainly intended for the education of the children of the aboriginal races other than Sonthals in districts of Jalpaiguri and Darjeeling numbered 35 with 1,490 pupils.

7. **Education of criminals.**—The Salvation Army maintained one industrial school for the education of the Karwal Nuts which had on its rolls 36 (31) boys and 32 (27) girls on the 31st March 1941. The total expenditure for the upkeep of the school amounted to Rs. 10,000 which was met from the provincial revenues.

The Borstal School at Bankura, meant for the education of juvenile offenders of the ages from 15 to 21, had 246 (258) pupils on the rolls.

The Midnapore Central Jail made arrangement for the education of convicts. At the end of the year there were 518 men under instruction. The work was carried on by convict instructors under the supervision of an Islamic Matriculate. The Jail Department spent Rs. 431 during the year for this anti-illiteracy work.

The Reformatory and Industrial School, Alipore, had 239 (248) inmates on 31st March 1941. In it instruction is given through the medium of three languages—Bengali, Hindi and Urdu,—up to the upper primary standard. Besides general education every boy received some sort of vocational training in one or another of the crafts—tinsmithy, blacksmithy, carpentry, weaving and tailoring. The reorganisation of the staff which had been pending for a long time was sanctioned during the year. With the appointment of additional staff the disadvantages under which the teachers had to work in the school have been removed and they are now able to pay more individual attention to the boys.

There is a primary school at Kaktenagair in Kishoreganj subdivision of the Mymensingh district, with an enrolment of 32 pupils.

As before there were 3 Board managed free primary schools for criminal tribes in the district of Chittagong. They had 312 (301) pupils on the rolls.

8. **Education of defectives.**—The Deaf and Dumb School, Calcutta, which teaches up to the primary final course and in addition painting, clay-modelling, tailoring, woodwork, metal-plating, etc., had 240 (240) pupils including 61 (60) girls. One of the candidates secured primary final scholarship reserved for them during the year. There were 3 schools for the education of the defectives in the Presidency Division (outside Calcutta). The number of pupils under instruction in these schools were 109 (127).

There were 3 aided deaf and dumb schools, one in each of the district headquarters of Dacca, Mymensingh and Bakarganj with 76 (76) pupils including 18 (11) girls. The Children's House, Kurseong, which adopts special methods of training to mentally and physically defective European and Anglo-Indian children had 14 (25) pupils on 31st March 1941. The number of pupils in the Suri Deaf and Dumb School was 10.

9. **Education of factory and colliery children.**—The colliery primary schools in the Asansol subdivision of the Burdwan district chiefly meant for miners' children, number 9 (10). They enrolled 392 (346) pupils. There were 5 primary schools in the district of 24-Parganas specially meant for the children of the mill and factory employees. In the Titagarh Factory Primary School, there are classes for Hindi, Urdu and Telegu-speaking boys. The Budge Budge School is managed by the local mission. The Mill authorities, in some cases, in the districts of Howrah and Hooghly, maintained or subsidised primary schools meant for the education of the children of mill-hands.

12. **Education of Jains.**—There were altogether 702 (710) Jain pupils reading in different grades of educational institutions in the Presidency. Of these 619 belonged to primary and secondary schools and 83 to colleges.

CHAPTER X.

Unrecognised Institutions.

(Figures in brackets refer to the year 1939-40.)

The total number of unrecognised institutions during the year was 1,609 (1,226). The increase is partly due to the opening of a large number of night schools for adults and partly due to the policy of restricted recognition adopted by some district school boards. Pupils attending these institutions numbered 76,134 (63,458). The schools under this category included undeveloped high, middle and primary schools, junior madrasahs and other schools which had not attained the standard of efficiency required for recognition by the department.

CHAPTER XI.

Residence of Students and Their Physical and Moral Training.

Hostels.—During the year 1940-41 the number of boarders residing in hostels and boarding houses attached to educational institutions rose from 38,178 to 40,563. Of the total number of boarders returned on 31st March 1941, 35,314 resided in hostels for Indians and 5,249 in boarding houses for Europeans. Of the inmates of Indian hostels 31,812 were males and 3,502 were females. Of the Anglo-Indian and European boarders 3,017 were boys and 2,232 were girls.

The hostels continued to be supervised generally by the members of the teaching staff of the school. The cost of supervision was met from provincial revenues in the case of hostels attached to Government institutions and shared by the Government and the School Committee in the case of hostels attached to aided institutions.

2. **Messes.**—There were 2,024 boarders in messes (including non-collegiate hostels) administered by the Students' Residence Committee of Calcutta University. During the year under report, definite steps were taken to reorganise the residence of girls' students in Calcutta and five new non-collegiate hostels for girls were brought under the control of the University. The messes and hostels under the Board of Intermediate and Secondary Education, Dacca, continued under the supervision of the Assistant Inspector of Students' Residences. They accommodated 670 boarders.

3. **Physical education.**—The impetus which physical education had received under the Youth Welfare Scheme in the previous year continued to operate during the year and was responsible for a many-sided development in it. The Director of Physical Education, Bengal, assisted by the District Organisers paid increasing attention to the organisation, development and spread of physical education according to the new syllabus. A graduated system of physical education to suit the varying physical growth of pupils was introduced and short courses of training for teachers of middle schools, junior madrasahs and primary schools were opened at different centres.

The College of Physical Education had 41 students on its rolls on the 31st March 1941. Of these students 34 received the Diploma in Physical Education. The students of the college gave demonstration of games and gymnastics at various places.

During the year under review the following amounts were sanctioned by Government for the objects noted against them for the improvement of physical education:—

(1) Short training course of teachers—Rs. 13,000.

(2) Grants to inter-school sports association—Rs. 10,000.

(3) Grants to District Councils and Youth Clubs—Rs. 26,000.

(4) Grants to schools for improving facilities for physical education—Rs. 26,000.

The College of Physical Education for Women, Calcutta, which had been opened in the previous year had 22 students on the rolls. Twenty of the students sat for the final examination and 18 secured the diploma, of these 12 have obtained posts. The Physical Directress, Bengal, held evening classes for Calcutta teachers twice a week at the college from July 1940 to March 1941.

4. **Boy Scouts.**—The Boy Scout movement held its own in spite of the counter-attractions of the Bratachari and Junior Red Cross movements. The Boy Scouts' Association received an annual grant of Rs. 6,000 for the management and development of the Boy Scout movement in the province. Besides, Rs. 5,000 was sanctioned for the establishment and development of Boy Scout Troops in Government and non-Government educational institutions and Rs. 1,700 towards training camps for scouters.

5. **Girl Guides.**—Most of the important high and middle schools for girls had Girl Guide Companies and Blue Bird Flocks in them during the year. The joyous activities which the movement provides enliven the work of the girls and are calculated to help in the formation of their character and development of their personality.

6. **Bratachari movement.**—Side by side with the Scout movement, the Bratachari movement flourished particularly in rural schools. During the year under review, the movement which had already attained an all-India character founded its headquarters in an extensive settlement at Behala in the suburbs of Calcutta. During the year under review Government sanctioned a recurring grant of Rs. 9,000 towards the maintenance of the movement and a non-recurring grant of Rs. 50,000 towards the establishment of its headquarters.

7. **Junior Red Cross.**—As in the previous years many high schools maintained Junior Red Cross Societies. These societies have done useful work in improving personal cleanliness in the pupils and popularising social service among them.

8. **Medical inspection.**—The Medical Board attached to the Students' Welfare Committee, Calcutta University, examined the health of 3,046 students during the year. The facilities offered by the Students' Welfare Committee for aftercare and follow-up work were largely utilised by the students. Medical inspection of students was conducted in a fairly large number of schools in the Presidency during the year under report, the work being done by health officers of municipalities, sanitary inspectors and doctors in the employment of district boards and municipalities and private medical practitioners. Results of the examination were communicated to guardians wherever necessary. Four full-time medical officers carried on medical inspection work in Government and aided schools in Calcutta.

9. **Hygiene.**—Hygiene is taught as a compulsory subject up to class VIII in high schools and it also forms a part of the revised curriculum for primary schools. It is an optional subject for the Matriculation Examination. Lectures on hygiene and sanitation illustrated by lantern slides were delivered by the health departments of district boards. Sanitary inspectors and vaccinators were also active in giving advice to the teachers and students of primary schools. Lantern lectures on health and hygiene were also arranged in some places by the Government cinema parties and were well attended by school children. With a view to imparting health education through schools, organising health examination of school children and providing medical relief to them, a school hygiene division under the Public Health Department has been established on an experimental basis for a period of five years with one Assistant Director of Public Health, one Medical Inspectress of School Hygiene, one Medical Inspector of School Hygiene and other subordinate staff.

10. **Religious and moral instruction.**—Direct religious instruction was as usual confined to denominational schools, madrasahs, tols and mission schools, although indirectly religious instruction was imparted in other schools through suitable lessons contained in text-books. With the introduction of the revised curriculum for primary schools instruction has been made compulsory for all the pupils in primary schools. Opening prayers have also been introduced in some institutions.

11. **National schools.**—The influence of those schools is steadily declining. During the year under report there was 1 national school in Calcutta with 200 pupils.

CHAPTER XII.

Conferences and Committees.

The Western Bengal Education Week and Exhibition were held in Chinsura for seven days with effect from 25th January 1941. A busy programme of lectures, symposia, exhibitions and a variety of other entertainments, all bearing on education, were arranged much to the benefit of those who attended it.

The Eastern Bengal Education Week was held at Jalpaiguri from 2nd to 8th April 1941. The following were some of the important subjects discussed in the symposia and lectures presided over by eminent educationists:—

(1) Reconstruction of Secondary Education.

(2) Education for Citizenship.

(3) Youth Movements in the Country.

(4) Primary Education.

A conference of the District Inspectors of Schools of the Rajshahi Division was held at Jalpaiguri to discuss matters relating to the starting of training centres for teachers of primary schools. Conferences of the District Inspecting Officers were also held at district headquarters in which questions relating to the reorganisation and redistribution of primary schools and effective methods of inspection thereof as also the status of primary school teachers were discussed. Mr. H. G. Waight, M.A. (Oxon.), PH.D. (Innsbruck), I.C.S., District Judge of Mymensingh, addressed the Conference of Educational Officers held at Mymensingh.

Conferences were held in Calcutta and Dacca of the Assistant Inspectresses of Schools and Head Mistresses of Government Training Schools and Government High Schools to discuss matters of common interest.

Conferences of primary school teachers were held at various places: some of them were attended by the Special Officer for Primary Education and the Hon'ble Ministers. The Subdivisional and Sub-Inspectors of Schools actively participated in these conferences. This enthusiasm among the rank and file of our primary school teachers is evidently an expression of the dawn of a consciousness of their rights and privileges and the growth of a professional spirit among them, which under proper guidance is expected to result in an all-round improvement of the existing system of education. The Bengal Women's Education League held their Conference in Calcutta in the month of February 1941 and was attended by the members of the inspecting branch and a large number of teachers from girls' schools.

A conference of representatives of the managing committee and the teaching staff of Calcutta and suburban schools was held on 6th August 1940 at the Albert Hall, Calcutta. An extraordinary meeting of the All-Bengal College and University Teachers' Association was held on 18th August 1940. These meetings were mainly concerned with the discussion of the Bengal Secondary Education Bill, 1940.

CHAPTER XIII.

Text-Book Committee.

There was no change in the personnel of the Committee during the year under review. The old Committee, constituted in 1939, continued to function.

In accordance with the programme of work of the Text-Book Committee sanctioned by Government, books on certain subjects for secondary schools were called for consideration. Four hundred and eighty-three books were received. Out of these 473 were sent to different groups of reviewers for examination, the rest being rejected at the preliminary scrutiny. Two hundred and seventy-eight books were finally approved by the department. One hundred and seventeen books were also received for approval as prize and library books out of which 87 were approved. The sum realised as fees from authors and publishers amounted to Rs. 7,083. Rs. 4,960 was paid to reviewers of books as remuneration.

The number of persons co-opted this year on different Sub-Committees of the Text-Book Committee in addition to its regular members was 31.

During the year only 12 essays were received for the Braja Mohan Dutt prize for Indian ladies. They were examined by a small committee of three examiners and the committee recommended the award of the prize to Miss Indira De to whom the prize was awarded accordingly.

CHAPTER XIV.

Education in the Legislative Assembly and the Council.

During the year 1940-41 numerous educational questions were interpellated in the Bengal Legislative Assembly and the Council. A few motions were brought forward proposing small cuts in some of the items of the budget during the debates in March and these afforded an opportunity to members to discuss among others questions relating to the system of primary education in the province, the constitution and functioning of the district school boards, the policy of Government in the administration of primary education, and regarding the education of the Scheduled Castes, the inadequacy of the provision for adult education, the policy regarding women's education and the provision of hostels for women students.

In other sessions members continued to show their lively interest in matters educational and questions were asked about such subjects as primary education and imposition of cess in districts, the Secondary Education Bill, religious instruction in guru training schools, the financial difficulties of the district school board of Mymensingh, Hindus in maktabs and the progress of Moslem education in Bengal. A resolution was adopted on the motion of Mr. M. Farhad Raza Chowdhury that the Government of Bengal should take steps to eliminate from books approved for use in schools in Bengal all references to the alleged Black Hole Tragedy as a historical fact.

CHAPTER XV.

School Broadcasts.

Fourteen radio-receiving sets were purchased in 1939-40 by the Director, All-India Radio, and 13 of these were installed in secondary schools and 1 retained by the Director. The hours of the School "Broadcast" are fixed in recess periods of schools ranging from 1-30 p.m. to 2-30 p.m. (Standard Time). The radio-receiving sets have been so installed that most of the pupils reading in classes X to VII can listen in.

The radio sets have become popular and useful. Government have realised the value of School Broadcasting and administratively approved a scheme for the purchase of radio-receiving sets in 41 Government educational institutions in the province at a cost of Rs. 12,450 capital and Rs. 2,910 recurring per annum on condition that the repair charges from the second year onward will be met from the normal provision in the Education Budget.

Notices.

3. If in any case the District Health Officer considers that the issue of a notice under these regulations is likely to lead to such an amount of delay as might facilitate the spread of cholera he may forthwith take such steps as he may think fit for carrying out the work, and shall thereafter, as soon as possible, issue a notice on the person concerned stating the reason why such work has been carried out.

4. If any measure which the District Health Officer has, by a notice issued under these regulations, required to be carried out, be not carried out to his satisfaction within the time stated in the notice the District Health Officer shall be entitled to carry out the measure.

(*2*) The Board may recover all expenses incurred by the District Health Officer in carrying out the measure under regulation 4 from the person or persons to whom the notice was originally issued.

Notices.

3. If in any case the District Health Officer considers that the issue of a notice under these regulations is likely to lead to such an amount of delay as might facilitate the spread of cholera he may forthwith take such steps as he may think fit for carrying out the work, and shall thereafter, as soon as possible, issue a notice on the person concerned stating the reason why such work has been carried out.

4. If any measure which the District Health Officer has, by a notice issued under these regulations, required to be carried out, be not carried out to his satisfaction within the time stated in the notice the District Health Officer shall be entitled to carry out the measure.

(*2*) The Board may recover all expenses incurred by the District Health Officer in carrying out the measure under regulation 4 from the person or persons to whom the notice was originally issued.

(*b*) GEOMETRY.

Class VII.

Problems.

Bisection of angles, and straight lines.
Construction of perpendiculars to straight lines.
Construction of an angle equal to a given angle.
Construction of parallels to a given straight line.

Theorems.

If two sides of a triangle are unequal the greater side has the greater angle opposite to it; and the converse.

Any two sides of a triangle are together greater than the third.

Of all straight lines that can be drawn to a given straight line from a given point outside it, the perpendicular is the shortest.

When a straight line cuts two other straight lines, if—

(1) a pair of alternate angles are equal, or
(2) a pair of corresponding angles are equal, or
(3) a pair of interior angles on the same side of the cutting line are together equal to two right angles,

then the straight lines are parallel; and the converse.

Straight lines which are parallel to the same straight line are parallel to one another.

Class VIII.

Problems.

Division of straight lines into any number of equal parts.
Construction of triangles and quadrilaterals with sufficient data.
Construction of a triangle equal in area to a given quadrilateral.

Theorems.

The sum of the angles of a triangle is equal to two right angles; and the two corollaries thereto.

If two triangles have two angles of the one equal to two angles of the other, each to each, and also one side of the one equal to the corresponding side of the other, the triangles are congruent.

If two right-angled triangles have their hypotenuses equal and one other side of the one equal to one other side of the other, the triangles are congruent.

The opposite sides and angles of a parallelogram are equal, each diagonal bisects the parallelogram; and the diagonals bisect one another.

If there are three or more parallel straight lines and the intercepts made by them on any straight line that cuts them are equal, then the corresponding intercepts on any other straight line that cuts them are also equal.

Parallelograms on the same or equal bases and of the same altitude are equal in area.

Triangles on the same or equal bases and of the same altitude are equal in area.

Equal triangles on the same or equal bases are of the same altitude.

ORDINANCE No. LXII OF 1942.

AN

ORDINANCE

to declare certain offices in the service of the Crown in India to be offices the holding of which does not disqualify the holder thereof for election as or continuance as a member of either Chamber of the Indian Legislature.

WHEREAS an emergency has arisen which makes it necessary to declare certain offices in the service of the Crown in India to be offices the holding of which does not disqualify the holder thereof for election as or continuance as a member of either Chamber of the Indian Legislature;

NOW, THEREFORE, in exercise of the powers conferred by section 72 of the Government of India Act, as set out in the Ninth Schedule to the Government of India Act, 1935, the Governor General is pleased to make and promulgate the following Ordinance:— 26 Geo. 5, c. 2.

Short title, commencement, effect and duration.

1. (*1*) This Ordinance may be called the Indian Legislature (Prevention of Disqualification) Ordinance, 1942.

(*2*) It shall come into force at once, but it shall be deemed to have taken effect on the 3rd day of September, 1939.

(*3*) It shall be in force only until the termination of the present hostilities and for six months thereafter.

Prevention of disqualification.

2. From the date on which this Ordinance is deemed to have taken effect and so long as it remains in force a person shall not be deemed to have been and shall not be disqualified for election as or continuance as a member of either Chamber of the Indian Legislature by reason only that he holds or accepts any office in the service of the Crown in India which is—

(*a*) an office not involving both of the following incidents, namely, that the incumbent—

(*i*) is a whole time servant of Government, and

(*ii*) is remunerated either by salary or fees; or

(*b*) an office in the naval, military or air forces of, or raised in British India on behalf of, His Majesty; or

(*c*) an office certified by the Central Government to be an office created for a purpose connected with the prosecution of the war, or to be an office to which, but for war conditions, a member of the defence or civil services of the Crown would have been appointed.

Removal of doubts.

3. If any question arises whether the incumbent of any office is or is not a whole time servant of Government for the purposes of sub-clause (*i*) of clause (*a*) of section 2, the decision of the Central Government shall be final.

Bills introduced in the Council of State and Legislative Assembly; Reports of Select Committees presented to the Council and Assembly; and Bills published under Rule 18 of the Indian Legislative Rules

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 22nd September, 1942:—

L. A. BILL No. 35 OF 1942.

A Bill further to amend the Aligarh Muslim University Act, 1920, for a certain purpose.

WHEREAS it is expedient further to amend the Aligarh Muslim University Act, 1920, for the purpose hereinafter appearing; XL of 1920.

It is hereby enacted as follows:—

Short title.

1. This Act may be called the Aligarh Muslim University (Amendment) Act, 194 .

Insertion of a new section 12B in Act XL of 1920.

2. After section 12A of the Aligarh Muslim University Act, 1920, the following new section shall be inserted, namely:— XL of 1920.

Students of Provinces and Indian States, to be allowed to appear in the High School Examination.

"12B. With the approval of the Executive and Academic Councils and subject to the Statutes and Ordinances, the Central Government may, on the recommendation of the Government of a Province or Indian State, allow students of a school in that Province or State, as the case may be, to appear in the High School Examination of the University."

STATEMENT OF OBJECTS AND REASONS.

I gave notice of a Bill in July 1938 to amend section 12A of the Aligarh Muslim University Act, 1920, with a view to extend its scope. That Bill was introduced in the Assembly and was circulated for opinion to Provincial Governments during the Budget Session 1940. Now that Bill has lapsed and in view of the amendment of section 12A of the Act in 1941 that amendment, if accepted, would have very much widened the scope which I never intended.

The scope of this Bill is very much limited as compared with my old Bill that has lapsed. It narrows down the definition of privileges and the power to grant the privilege is transferred from the University to the Central Government which can be exercised only on the recommendations of the Provincial Governments concerned.

DEPARTMENT OF AGRICULTURE, BENGAL

Second Forecast of the Winter Rice Crop of Bengal, 1942-43.

(Note.—On an average of the five years ending 1940-41, the area under winter rice in Bengal has represented some 20·7 per cent. of the total area under winter rice in India.)

Character of the season.—Since submission of the first forecast of the crop the weather conditions have been seasonable. Heavy rainfall attended with a serious cyclone and tidal wave in October last caused serious damage to the crop in some areas in Midnapore and in the 24-Parganas. Other districts of the Burdwan Division were also more or less affected by the cyclone and flood. Insect-pests and root-rot disease have been causing damage in some parts of the province. The present condition of the crop is, on the whole, fair except for some fungus disease in parts.

Acreage.—According to the figures returned by the District Officers, the total area under winter rice is estimated to be 16,181,300 acres as compared with 16,906,500 and 16,914,100 acres respectively in the corresponding and final forecasts of last year.

Outturn.—From the summary of the district returns appended it will be seen that one district expects a normal outturn of 100 per cent., three districts between 94 and 90, five districts between 85 and 79, four districts 75 per cent. and the remaining districts anticipate between 70 and 50 per cent. of the normal.

According to the above estimates the provincial outturn works out at 73 of the normal as against 87 and 96 per cent., respectively, in the corresponding and final forecasts of last year.

Accepting 73 per cent. as the provincial outturn, the gross yield of the crop, on the basis of the normal yield of 12 2/5 of clean rice (husked) per acre, is estimated at 5,380,600 tons this year against 6,754,000 and 7,456,000 tons estimated respectively in the corresponding and final forecasts of last year.

Director of Agriculture, Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL

Dacca, the 19th December 1942.

First Forecast of the Spring Oilseed Crops of Bengal, 1942-43.

(*Note.*—On an average of the five years ending 1940-41, the area under linseed in Bengal has represented some 3·6 per cent. and that of rape and mustard 12·4 per cent. of the total area under these crops in India.)

Explanatory.—Three forecasts are issued for the spring oilseed crops. The present one deals with the area sown and the condition of the crops.

Area sown.—Spring oilseeds are chiefly grown in the Presidency, Rajshahi and Dacca divisions. In the other two divisions the cultivation is not so extensive. The total area under these crops (excepting sesamum for which separate forecasts are issued) is returned at 1,079,700 acres this year against 940,300 and 945,700 acres, respectively, in the corresponding and the final forecasts of last year.

Character of the season.—Sowings commenced generally in normal time under favourable conditions except in some districts where the operation was somewhat delayed owing to heavy rainfall in October. Subsequent weather conditions have been favourable for late sowings and for the growth of the crops generally. The present condition of the crops may be regarded as fair.

M. CARBERY,
Director of Agriculture, Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL

Ramna, Dacca, the 22nd December 1942.

Third Forecast of the Cotton Crops of Bengal, 1942-43.

(*Note.*—On an average of the five years ending 1940-41 the area under cotton in the (*I*) province of Bengal and (*II*) the Tripura State to which this forecast relates has represented some (*I*) 0·3 and (*II*) 0·1 per cent., respectively, of the total area under cotton in India.)

There are two crops, early and late. The early crop is chiefly grown in the Chittagong Hill Tracts, the Tripura State, Mymensingh, and to small extent in other districts. The late variety is grown in Bankura, Midnapore and Mymensingh.

Character of the season.—The weather and its effect on the crop have not been satisfactory excepting in the district of Mymensingh where the condition of the crop is good.

Area sown.—The total area sown with the early cotton this year is returned at 106,286 acres against 106,188 acres both in the corresponding and final forecasts of last year and that with the late variety at 395 acres against 635 acres in the corresponding and final forecasts last year.

Outturn.—The outturn of the early crop this year is estimated to be 31,852 bales against 29,614 and 28,941 bales, respectively, in the corresponding and final forecasts last year and that of the late variety to be 70 bales both this year and in the corresponding and final forecasts last year.
